# THE NEW ERA OF DATA CENTERS

FUTURE OF INFRASTRUCTURE. SUSTAINABLE. SCALABLE. CONNECTED.

## HYPER-SCALABLE CLOUD

On-demand capacity for  
massive data volumes.

## SUSTAINABLE GREEN TECH

Eco-friendly operations  
with renewable energy.

## GLOBAL EDGE CONNECTIVITY

Low-latency access  
worldwide.

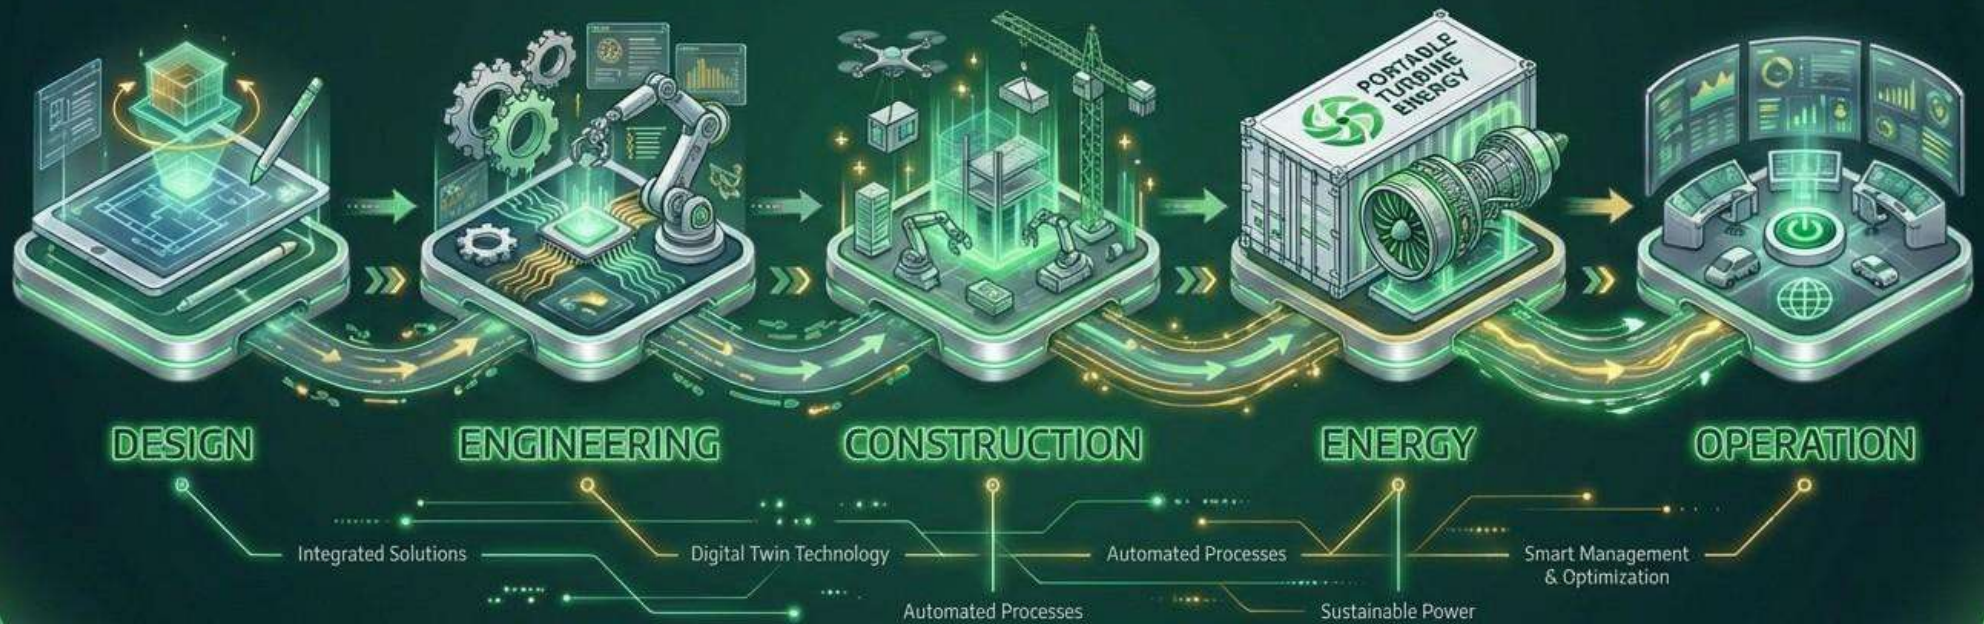

DATA FUTURE SOLUTIONS

# What We Do

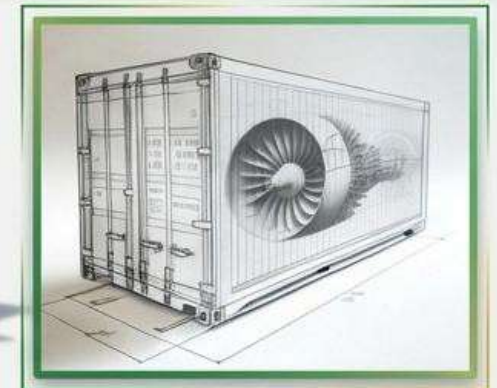

Copyright 2025-2026 Portable Turbine Energy LLC

# Portable Power Generation

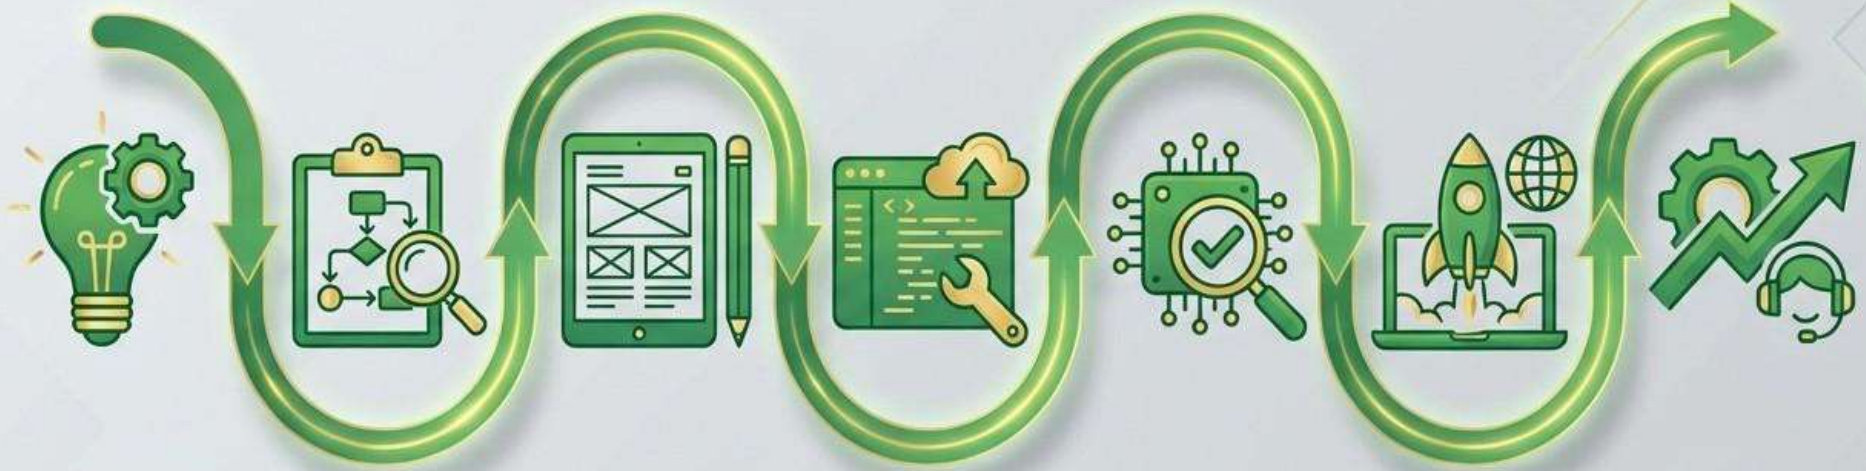

Our portable turbine energy systems provide flexible power solutions. Designed for easy transportation and deployment, these units combine industrial turbine performance with container-based portability. Ideal for remote locations and temporary power needs.

# EXPERTISE

## IDEATION & CONCEPT

Visionary solutions and feasibility.

## PLANNING & STRATEGY

Comprehensive roadmapping.

## DESIGN & PROTOTYPING

User-centric blueprints.

## DEVELOPMENT & ENGINEERING

Scalable, robust code.

## QA & TESTING

Rigorous validation and quality.

## DEPLOYMENT & LAUNCH

Seamless go-to-market.

## MAINTENANCE & GROWTH

Continuous optimization.

# NEXT-GENERATION DATA CENTERS

POWERING THE FUTURE WITH HIGH-PERFORMANCE ARCHITECTURES & BRIGHT GREEN ENERGY

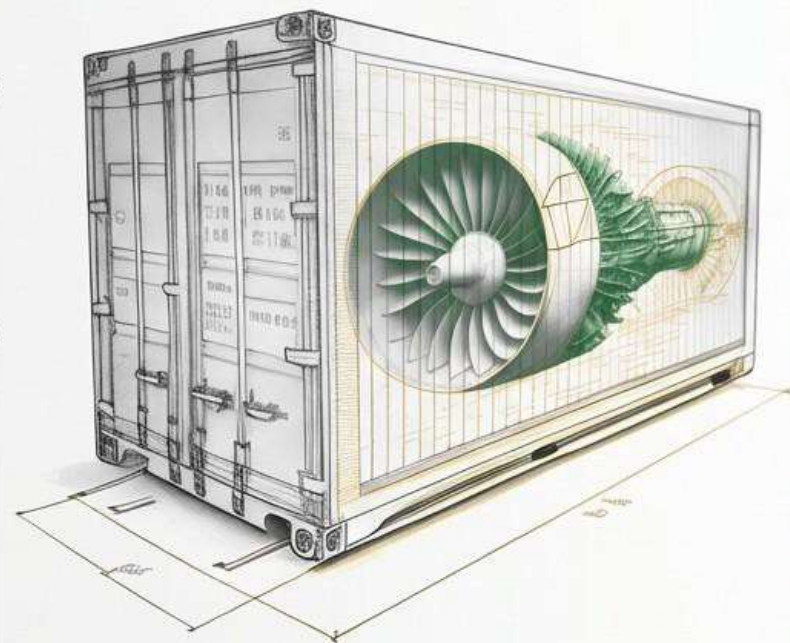

# Advanced Turbine Technology

PTE is the energy of the future

- PTE's advanced industrial turbine technology delivers reliable power generation.
- Our turbines are designed for maximum efficiency, incorporating cutting-edge engineering and materials.
- Each unit is optimized for portable deployment and rapid installation.

# OUR PRODUCTS

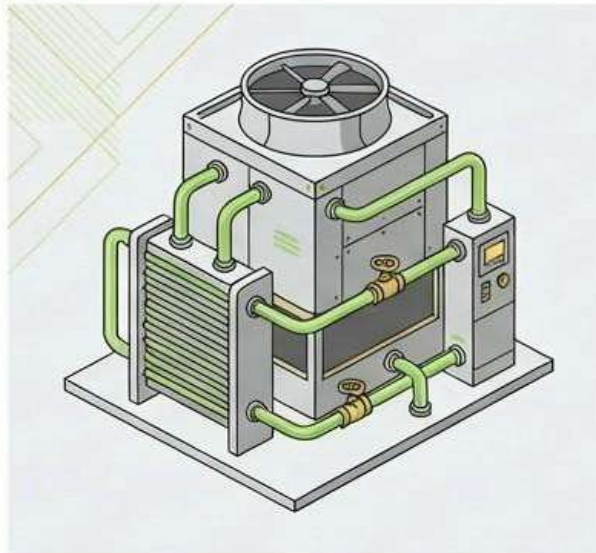

## HIGH-EFFICIENCY TURBINES

- > Robust, energy-efficient solutions for diverse applications. Optimized for performance.

## ADVANCED COOLING SYSTEMS

- > Innovative thermal management for reliability and longevity. Sustainable design.  
(with heat recovery system converting air to water)
